

Need home improvements?

Problem Solved

We had the pleasure of using Karen from Integri kitchens in our last kitchen and bathroom renovation.

Like all renovations nothing always goes perfectly to the plan.

Without any fuss Karen and Rick jumped into action and solved each and every hurdle along the way.

From under counter blocking to a mysterious breaking of the vanity mirror, Integri kitchens made sure they put their best and most competent foot forward.

This made our project go as smooth as a babies back side.

I cannot wait for our next project and would highly recommend Integri kitchens for all your custom cabinetry needs.

Thank you,
Lee Miskew
