## Integri Kitchens - Uniqueness Defined

When 90% of the business you receive is from referrals you know you're doing something right. With over 70 years of combined experience, Integri Kitchens has been "doing it right".

In addition to traditional wood species they utilize unique and exotic woods such as African Wenge, bamboo and mahogany. Using traditional wood mouldings, custom hoods and two-tone finishes together with quartz or granite countertops of superior quality, results in a one-of-a-kind presentation for their clients.

"We can do anything," states owner Karen Smith without being boastful, "and we're a smaller more personalized business. Clients have unique needs and desires which means anything is possible."

And by anything Karen means designing and even helping you imagine your perfect kitchen or bathroom. Providing any look or combination a customer is after is a challenge they're eager to take on. Bringing in pictures from a magazine is a good starting point to help with ideas. Perhaps you want a small alcove for the dog's water dish. Or any other design feature that makes it your kitchen. Integri can design and supply kitchens, bathrooms, bars, entertainment centre's, closets,

counter tops and even wall beds.

"Really it's just letting your imagination be your guide," states Integri Manager Rick Hlady, "whether it's an ultra modern look or a cleaner transitional look we can accomplish that."

Integri can also take the lead for cabinetry on your renovation or for your new build; start to finish. They work with three unique and different suppliers who all offer a vast array of product choices. Combined with long-time home builders, renovators and interior designer partners, plus very experienced tradesmen who install unique counter tops such as granite, quartz and laminate, you can rest assured your project will be done professionally. And of course, you can also install your purchase yourself if you choose.

Karen, Rick and Sherry are always available to discuss new projects with new or returning clients and can be reached at - Integri Kitchens 780-489-9960 or email at [info@integrikitchens.com](mailto:info@integrikitchens.com)

Integri Kitchens is located immediately south of 107Ave & 168 St. in Edmonton.
